optical disc cartridge.  
Coming this Fall.

Pricing available upon  
request

### Overview

Reliable and robust large-capacity media for Optical Disc Archive, Generation 2

### Highlights

- \* Capacity 3.3TB: Double sided discs with triple layer/side achieving a large 3.3 TB capacity while maintaining the same size cartridge of 1st generation ODA.
- \* Higher Transfer rate: maximum transfer rate (1 Gbps/write, 2 Gbps/read) is achieved by double sided discs and a new pick up system.

- \* Reliable archival media: Archival Disc contains a special recording layer with an excellent level of resistance to corrosion and oxidation. It has a long archival life span and is highly suitable for your archival use.
